

## **Climate Access Internship**

### About Climate Access:

Climate Access ([www.climateaccess.org](http://www.climateaccess.org)) is a global network of climate and clean energy communicators, serving more than 2,000 members in 57 countries. Through Climate Access, members are connected to a diverse group of experts, cutting-edge research and proven techniques for mobilizing audiences to reduce emissions, prepare for impacts and support climate policies. Climate Access provides the knowledge that climate leaders need to take their communications to the next level.

### Responsibilities:

We are looking for interns who can assist with the following tasks:

- Gather, review, and categorize reports, public opinion polling, and social science articles on climate change communications and public engagement.
- Research and summarize examples of exciting new climate and energy campaigns to share with the Climate Access network.
- Analyze the Climate Access network database to determine areas of member needs and interest.
- Develop Facebook and Twitter content and contribute to the continued growth of Climate Access' social media presence.

Hours: 8-10 hours per week

Location: Online

### Requirements:

- Graduate level coursework related to climate change communications and public engagement.
- Research experience (preferably in a field related to climate change or the environment).
- Excellent written and verbal communication skills.
- Proficiency with Microsoft Word, Excel, PowerPoint, social media tools, and web-based applications.

Deadline: Ongoing. Applications will be considered on a rolling basis.

This is an unpaid position.
